RADIOLOGY SERVICES
OUTSOURCED CLINICAL & MANAGEMENT SERVICES
SINCE 2006, Sheridan has provided, world-class expertise in imaging services, with 2 million radiology and teleradiology interpretations annually. Our turnaround times routinely outperform contracted times, and our quality management program ensures that discrepancy rates are consistently below the national average.
SHERIDAN’S LEAN ENTERPRISE TRANSFORMATION TEAM is led by a full-time Kaizen Promotion Officer who works collaboratively with providers and clients to ensure continual improvement of clinical processes. In addition, all Radiology Medical Directors participate in the Sheridan Leadership Academy. Throughout the course of the program, our leaders develop:

- Capacity to grow in a clinical, business, and financial atmosphere
- Financial concepts and reporting skills
- Techniques for implementing effective change
- Successful communication strategies

SHERIDAN’S CLINICAL QUALITY MANAGEMENT PROGRAM provides an ongoing objective, systematic process for evaluating, maintaining, and enhancing care functions in all key performance areas. The program tracks and trends clinical core competencies and integrates the level of proficiency into a final composite score for process of care. Our current composite care score is 99.84%.

PROCESS

SHERIDAN’S CLINICAL QUALITY MANAGEMENT PROGRAM provides an ongoing objective, systematic process for evaluating, maintaining, and enhancing care functions in all key performance areas. The program tracks and trends clinical core competencies and integrates the level of proficiency into a final composite score for process of care. Our current composite care score is 99.84%.

TECHNOLOGY

FRESH (Final Reads Electronically From Sheridan Healthcare) is an in-house IT teleradiology infrastructure that integrates multiple technologies into a single complete package. It pre-fetches all relevant prior exams for the radiologist and includes full integration with facility systems. Final radiology reports are dictated by local, U.S.-based radiologists.

- 24/7/365 STAT/Emergency
- Reviewing orders
- All imaging modalities
- Retrieving prior exams
- Study images and prior studies reviewed
- Automatically send reports back to the facility through PACS/RIS

Sheridan Boasts a 98% Provider Retention Rate—One of the Highest in the Industry.
